

E^{lectrical assist} bike

It's most benefit is that it could climb hills with ease. Not just in hills, will powerfully assist you in the headwind or on the start. Easy for everyone!

Rental E-bike & helmet included

E-bikes you will be using are E-assist bike, which is basically a bicycle.

The electric motor works with your pedaling and automatically assists when you pedal. Providing long ride for less fatigue.

Insurance will be paid for the damage from unforeseen accidents during the tour.
